Mr. Sanchit Taksali, CFP[®]CM Independent Director

Introduction

"Wealth can only be created, if it is Managed wisely while Preserving its Legacy."

In the last 40 years, the Indian Stock Market has given an annualized return of 15% i.e. bringing the compounding effect of money doubling in every 5 Years. Thus, any investor who stays invested in the Indian Stock Market with a corpus of just Rs. 100 in the 1980s has created a wealth of Rs. 26,786.35/- (the Year 2021) which is a whopping 267x multiple of return over the period.

Wealth comes with an option of Time. It has been proven, that investors who follow the Strategy of Asset Allocation created wealth for themselves as well as for their Future Generations.

Creating Wealth is not just about Equity Investments - It is more of an Asset Allocation into the Right Asset Classes with Proper Diversification. In India, before 1992, the Asset Classes has been limited to Real Estate, Stocks, Mutual Funds, Gold, Silver & Other Precious metals. With Globalization & Liberalization comes into the effect, the traditional Asset Classes have been transformed into Alternative Investments. Offering Investors, the option to choose varieties of products/services for their Portfolio.

As a great saying,

"With more Power comes, Greater Responsibilities."

Similarly,

"With more Investment Options, the greater are the chances to hedge against the unknown Risk."

"At Kedia Capital Services, we always believe in providing Quality Services to both our team as well as to our customers.

Thus, in the year 2020, after the approval of the SEBI Registered Investment Advisory License - We started diversifying our Product/Service Basket to provide our prestigious clients with Right Investment Avenues under an umbrella.

Resulting in, Save Time, Effort & Cost in our customer's pockets.

Investing Money is Simple, but Managing these investments requires expertise & experience which, at Kedia Capital Services incorporated at its root since 2004.

And will continue to do so..."

"This is our Monthly Recommended Portfolio Performance Report for our esteemed Clients & our Internal Team members for reference purposes. Thus, benefiting both on an individual basis as well as on a societal basis.

Along with this, it will also, acknowledge our customers in enriching their Knowledge about the available Investment Avenues & the Risk-Reward payoff offered by such avenues.

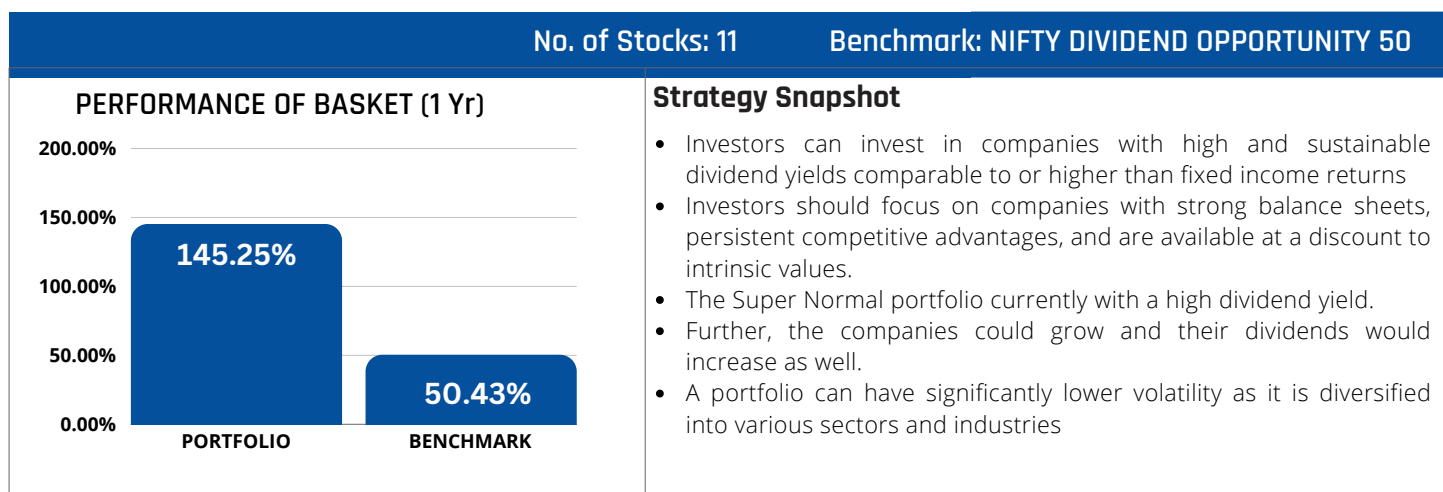

Investments in any Financial Instruments are Subject to Market Risk. Please Always Consult with SEBI's Registered Investment Advisor or Kedia's Wealth Advisor, before taking any investment Decision.

At Kedia Capital Services, we continuously try to aware as many individuals as possible of Financial Literacy & Inclusion through Investor Awareness Program, Online Webinars, Weekend's #KediaTalks, and much more.

Strategy Snapshot

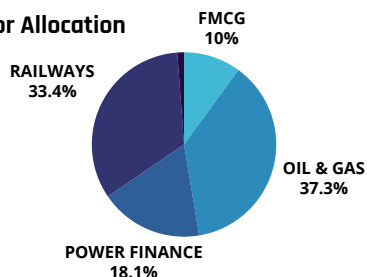

- More people in the middle class have more discretionary income, which is the amount of money they have left over after paying for things like food and housing.
- This revenue is used to purchase upscale goods like cosmetics, designer clothing, entertainment, etc.
- Transportation, food & beverage, education, entertainment & leisure facilities, and other areas will be directly impacted by the anticipated growth in discretionary expenditure during the coming ten years.
- Companies that are anticipated to gain from the expansion of the middle class in India are included in this stock basket.
